# TIM ROBERTSON

Senior Full Stack Developer

@ sven3270350@gmail.com 🔗 github.com/sven3270350

SUMMARY

As a full-stack developer, I have been collaborating with a variety of companies including small startups and big communities, which has made him intimately familiar with all the stages of the web lifecycle from the initial architecture to final deployment. Over the past six years, he solved many complex and technical problems with his strong logic and creativity. I communicate complex ideas clearly and accurately and works well in teams of all sizes.

PROFESSIONAL EXPERIENCE

Frontend and Dapp Developer
World of V

08/2022 - 08/2023

Remote

- Developed and maintained multiple Dapps using React, TypeScript, and Web3.js.
- Collaborated with the design team to bring user interfaces to life while ensuring optimal performance and accessibility standards were met.
- Implemented clean and efficient frontend code utilizing modern React practices and libraries including hooks, context, and CSS-in-JS.
- Implemented Staking, Listing, Offering and Batch action functionality for various Collections on VeChain.
- Contributed to technical discussions and offered creative solutions to enhance the user experience and functionality of the Dapps.

Frontend Developer
SOLVEIT

01/2022 - 07/2022

Warsaw, Poland

- Participated in campus cloud project which is the admin dashboard for student experience management.
- Developed several pages in pixel-perfect from the Figma design using React.
- Used NgRx for state management and integrated it with a RESTful API written with Python Django.
- Performed test-driven development using Jasmine, Karma, and CI/CD with a GitLab pipeline.

Full Stack Developer
Holidu

04/2020 - 11/2021

Munich, Germany

- Integrated Redux and MobX on a number of React-based front-end projects for the better state management of React components.
- Integrated React.js and MUI with a Node Express back-end.
- Implemented a GraphQL-and-Apollo server for a React-and-Vue.js front-end data query.
- Implemented user authentication and authorization using JSON Web Tokens (JWT) and bcrypt for password hashing.
- Developed and maintained a Node.js-based RESTful API using the Express framework
